DIPLOMA IN TECHNICAL TRAINER EDUCATION

Course Name : Training Methodologies
Unit Code : ED/B/7101
Duration : 20 Hours
Target Group : ALL Trainer Trainees Cohort April 2026 intake (Holiday Based)
Delivery Mode : Blended (Face-to-Face, Online, Experiential Practice)

1. Course Description

This course equips trainee trainers with competencies aligned with the Competency-Based Education and Training (CBET) framework as prescribed by the Technical and Vocational Education and Training Authority (TVETA). It focuses on acquiring and demonstrating practical instructional, facilitation, assessment, and reflective competencies required of TVET trainers. Emphasis is placed on learner-centred methodologies, workplace-relevant training delivery, continuous assessment, recognition of prior learning (RPL), inclusive practices, and the effective use of digital technologies in training environments.

2. Course Rationale

With rapid technological change, diverse learner profiles, and the shift toward CBET and digital learning, TVET trainers require modern instructional strategies that go beyond traditional lecture methods. This course responds to current demands by integrating active learning, digital pedagogy, micro-teaching, and reflective practice to enhance the quality, relevance, and learner engagement of training.

3. Learning Outcomes

By the end of the course, the trainee trainer should be competent to:

1. Apply learner-centred, participatory, and work-based training methodologies in accordance with CBET principles.
2. Interpret occupational standards, curricula, and assessment criteria to inform training design and delivery.
3. Develop CBET-compliant training documents, including schemes, lesson plans, session plans, learning activities, and assessment tools.
4. Facilitate learning in physical and digital environments that are inclusive, safe, and aligned with TVETA quality standards.
5. Reflect on training practice and implement continuous improvement strategies.

Unit Delivery Plan: Learning Outcomes, Content, Suggested Assessment Methods.

Week(s)	Element	Competency / Learning Outcome	Key Content Areas	Learning Activities (Evidence)	Assessment Methods	TVETA Evidence Required	Hours
Week 1	1. Interpret Training Standards	Analyse occupational standards and curricula	• Occupational standards, • Curriculum structure, • Assessment criteria	Document analysis, group discussions	**CAT 1:** Document analysis report	Analysed OS and curriculum extracts	2
Week 2-4	2. Facilitate Learning	Apply learner-centred training methodologies	• Active learning. • JSS/SSS learner Centered Pedagogies (Inquiry Based Learning/ Project Based Learning/ Problem- Based Learning) • Facilitation techniques.	Role play simulations	**CAT 2:** Facilitation performance	Observation checklist, video evidence	4
Week 5–8	3. Plan Training Sessions	Develop CBET-compliant training documents	• Bloom's taxonomy • Domains of learning • Learning outcomes • Schemes & Lesson plans. • JSS/SS Schemes & Lesson plans. • Learning plans & Session plans.	Document planning, peer review	**CAT 3:** Training documents portfolio In groups not exceeding 5, trainees microteach develop videos for 5 to 10 minutes	Approved lesson/session plans. Approved JSS/SSS schemes/lesson plans Approved schemes/lesson plans	8
Week 9	4. Manage Learning Environment	Create inclusive and safe learning spaces	• Classroom/workshop management, • Health & Safety	Demonstrations, reflective discussions	Observation, reflective journal	Safety compliance records	2
Week 10	5. Reflect and Improve Practice	Evaluate own training practice	• Reflective practice, • continuous improvement	Reflective journals, peer feedback	Portfolio assessment	Reflective reports	2

4. Assessment Framework

- **CAT 1:** Training document analysis (10%)
- **CAT 2:** Training documents portfolio (10%)
- **CAT 3:** Micro-teaching facilitation and reflective portfolio (10%)
- **Online CAT:** Covering 75% of the content (70%)
- **Final Assessment:** Integrated practical and written evaluation (100%)

5. Teaching and Learning Approaches

- Experiential and problem-based learning
- Micro-teaching and peer learning
- Blended and digital learning tools
- Reflective practice and feedback loops

6. Key References and Learning Resources

Mandatory References (All Students Must Read & Use)

These are **core texts and guidelines** that students must engage with to complete the unit, micro-teaching, and assessment tasks.
